ORGANISING CHAIRMAN

Dear Delegates,

Oncology today forms a major part of the practice for a surgeon. Onco-Surgery as a Speciality has developed but there is a shortage of skilled manpower, especially in tier 2 & tier 3 cities. Even for Onco-Surgeons, the field of minimal access surgery in cancer is a skill that cannot be missed!

Keeping this in mind IAGES brings together the FALS (Fellowship in Advanced Laparoscopic Surgery) Oncology course! It has 38 modules in various sub-specialties of MAS oncology over 2 days & a surgical workshop on the third full day! We have tried to get together the best faculty in the field to share their knowledge, experience & skills in this second physical off-line course in FALS Oncology 2024 Mumbai.

FALS fellowship course is a wonderfully balanced course covering the technical nuances of advanced Oncology topics. IAGES is a vibrant body with more than 11000 surgeons as members. More than 3000 members have been trained under the aegis of IAGES. Every year the technologies in Surgical Oncology is introduced and it is very important to upgrade yourself.

The organizing team welcomes you to the commercial capital of India, which is called as dream city for many. Our Hospitality will mesmerize you in Mumbai. The weather during August is always very pleasant in Mumbai Maharashtra.

Looking forward to meeting you all in person.

Regards,

Dr. Anil Heroor
